

CONTINUING EDUCATION STATEMENT OF OBJECTIVES AND ACCREDITING BODIES

STATEMENT OF OBJECTIVES

The scientific sessions of the American Psychoanalytic Association's meetings are intended to bridge the practice gaps in the professional knowledge of attendees by exploring new and recent developments in research, theory, technique, clinical knowledge and by offering opportunities to review essential psychoanalytic knowledge.

After attending the 2024 National Meeting, attendees should be able to:

- 1) Analyze how race and indigeneity function in elaborating patients' clinical histories to revise fixed histories and accommodate previously excluded material
- 2) Assess the institutional obstacles that impede changing systemic racism within the mental health profession with respect to training, education or supervision and plan initiatives that can work to advance racial equity
- 3) Describe the mode of direct address and demonstrate when this mode is disrupted by distance—through trauma, writing, sampling, and other forms of mechanical reproduction
